Consumed In Four Hours-Most Destructive Conflagration Since the Memorable Disaster of 1666-Hundreds of Buildings in the Disaster.

LONDON, Nov. 19 .- One of the most disastrous fires in London's G. Sherman went to Chattanooga history, since the great fire of 1666, broke out in a large block of building lying eastward of Aldersgate street and between that thoroughfare and Red Cross street, just after 1 o'clock this afternoon. The flames were fanned by a strong wind, and fed by highly inflammable stocks of Christmas fancy goods and flimsy dress materials of all descriptions that filled every week. floor of the six story buildings in the old street. Consequently, the conflagration gained headway with surprising rapidity, and was soon checked by the few engines which were early on the spot.

> For four hours and a half the flames had their own way, and it was only after more than a hundred engines had worked an bour that the chief of the fire brigade sent out the signal that the fire was under control. The district ravaged includes part of Australian avenue, Paul's Alley, Cripple Gate churchyard, Wood street square, Monkwell street, Nicholl's Square, and Fore street.

At 11 o clock to-night the fire is still the scere of great excitement. Fifty engines are playing upon the ruins, wagons are hurrying up coal the fiery debris. Thousands of granted that he would be nominated, some of our bargains. people are trying to penetrate the cordon maintained by thousands of policemen, reinforcements for whom were hurried up, when soon after 6 o'clock an increase in the outbreak led Commander Wells to make a requisition for more engines upon the outlying stations. The scene must occupy the fire brigade for several hours, especially in view of the grave danger of the collapse of shells of buildings, which fall now and again with a loud report. The latest accounts indicate that nearly a hundred To sell State's Right's for warehouses have been destroyed, while the loss will probably exceed £3,000,000.

The historic church of St. Giles has been much damaged, the principal damage being to the roof, the windows, the baptismal font and Milton's statue.
